

FOOD RETAIL

PRODUCT APPLICATION GUIDE

FOOD RETAIL

Food Retail consists of grocery and convenience stores that have ventilation needs like restaurants. S&P fans are necessary in locations that have cafes, delis and bakeries.

EXAMPLE:

WHY IS IT IMPORTANT?

- Keeps food fresh and eliminates cross contamination
- Keeps cooking equipment in delis well ventilated and safe
- Keeps air in commercial space fresh and clean
- Ventilation products visible to customers are aesthetically pleasing
- Keeps temperatures at consistent and desired levels
- Provides constant fresh air in office areas
- Helps meet code NFPA96, from the National Fire Protection Agency

 <p>MODEL LCE Belt Drive Sidewall Propeller Exhaust Fan APPLICATION: Dock Exhaust</p>	 <p>MODEL SQD/eSQD Direct Drive Square Inline Centrifugal Duct Fan APPLICATION: Deli</p>	

 What is ECOWATT? S&P has developed the Ecowatt® standard to classify energy-efficient products that use Electronically Commutated (EC) or Direct Current (DC) motors. Models that fall under this standard have a certified performance through AMCA (Air Movement & Control Association International, Inc.) or HVI (Home Ventilating Institute). If the products designed for residential applications the model must be ENERGY STAR® qualified.

* Miami-Dade certified, TAS201-TAS202-TAS203
